METROPOLITAN RACING SEASON. Opens Today at Belmont-13 Fine Entries for \$10,000 Handicap.

New York, May 12.-Horse racing on its own merits—the excitement of the track minus bookmaking—will be tried out on the Mctropolitan circuit tomorrow with the opening of the 1999 turf season at Belmont Park, L. L. under the auspices of the Westchester

Louisville, Ky., May 12.—Nadzu, the favorite, which won the last race today, ran a mile and an eighth in 1.53 at Churchill Downs. This equalled the track record heid by Light Wool. Jos Morris easily won the feature event, the Bashford Manor stakes, four and a half furlongs. The racing was spirited and the crowd large.

Distrust and Suspicion.

New York, May 12.—There were sensational features in today's stock market, but the fallure of the general mar-

ket to respond to the extraordinary movements in special stocks was its most remarkable feature. Spasmodic

most remarkable feature. Spasmodic starts in one stock after another developed in succession, but in the intervals the market lapsed into duliness and apathy. The effect was to suggest an artificial character to the market which caused some supjection and distrust. Reading was the central figure in the day's dealings, and its fluctuations were violent and frequent in its flights to new record levels, with

its flights to new record levels, with the exception of its rise to 164 in Jan-uary, 1906. The high priced coalers

showed pretty close sympathy with the

thresponsive. When this was corrected by an aggressive advance in Union Pacific, Reading slipped back over the

whole of its previous upward course. Then, again, when Reading was push-ed to a new high level, Union Pacific

lost all of its advantage, giving the appearance of unavailing efforts by the supports of the market to keep the whole list moving together. There

were many lesser currents and cross-currents in the price movement, but the constant contrariety of these two

stocks left the market entirely lacking in consistency of tone. The confusion told in time on the speculative senti-ment and led to the late depression in

the whole list. Belief that the market was being manipulated to cover the real nature of the operations going on

unsattled confidence. News from out-side affairs was not given much con-sideration. Buying orders from abroad outnumbered the selling orders, and the London market showed growing disposition to speculate, preferring the

volatile Kaffir mining stocks as a me-dium. The large applications for the London county council loan were re-

rded as assurance of abundant mon-

facilities in that market. The strike French government employes was no apparent influence in the martin. The demand for loans is intaking, especially for fixed periods, d the supply offering is reported by those to be growing less. The amount

and the supply offering is reported by prokers to be growing less. The amount of commercial paper is also growing more abundant. Heavy issues of proposed new railroad securities remain to be financed. The late tone of the market was much unsettled and the closing tone irregular. Bonds were irregular, Total sales, par value, \$7,-292,000. United States bonds were unchanged on call.
